

A high-angle photograph of an astronaut in a white spacesuit standing on the lunar surface. The astronaut is positioned on the left side of the frame, facing right. The ground is dark grey and covered in small rocks and dust. A large, circular crater is visible on the right side of the image. The overall lighting is dim, creating a somber and desolate atmosphere.

# Elsner Business Model

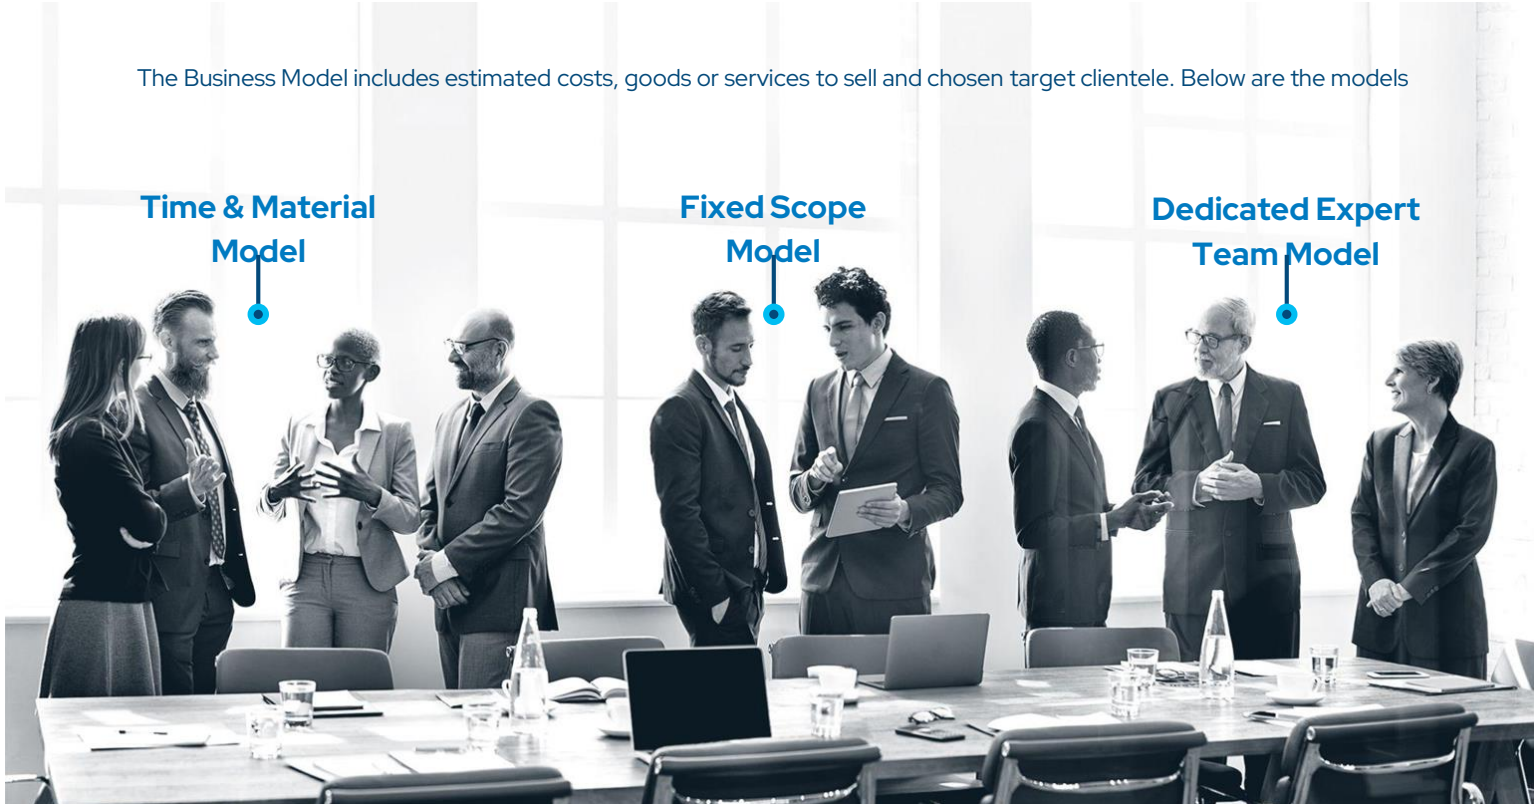

The Business Model includes estimated costs, goods or services to sell and chosen target clientele. Below are the models

**Time & Material  
Model**

**Fixed Scope  
Model**

**Dedicated Expert  
Team Model**

## Time & Material Model

When the resources and the time cannot be pre-determined and estimated for a project, this model should be adopted.

We give our clients the choice of hourly, weekly, or monthly plans when hiring our services for their projects.

# Fixed Scope Model

The fixed scope model enables the client to prepare a budget in exact detail.

We provide our professionals a better picture of the project's scope and other important information according to the customer's software specification documents.

## Dedicated Expert Team Model

This model works best for businesses that; the Customer can pick, employ, and interview a dedicated resource for their project.

And the resource will serve as the customer's only point of contact and work hard for a reliable solution.

# Our Clients

# Testimonials

"Your team was fast and responsive... understood all of my directives to the T. Great job!"

– **Yoel Boza**

"The discovery phase was done very well and the team is very cooperative and suggestive. I highly recommend Elsner Technologies to other companies for any kind of website development."

– **Melroy D'souza**

"First off, I would like to say how honored I am to work with this team. They have been nothing short of incredible. Very hands-on teamwork ethic everyone is willing to learn and great communication to anyone thinking about using their service I would highly recommend."

– **Zack Benson**
